

Smart Construction Simulation

2026.8.4(Schedule) About the Release Version

- We are pleased to announce the release of updates to "Smart Construction Simulation" with the following schedule and content.
- Due to system maintenance, the relevant services will not be available during the following dates.
(*The release schedule, time, and contents are subject to change depending on the situation. Please understand this in advance.)

Schedule : Tuesday, August 4 (Japan time) 7:00 p.m. - 12:00 p.m.

NO.	Target Functions	Overview	Details
1	Simulation (Bug Repair)	Fixed an issue where map operations slowed down when rendering large IFC files	We have fixed an issue where the display would lag when drawing large IFC files in response to map operations, and have improved the system to allow for smoother operation.
2	Machine Simulation (Bug Repair)	Fixed an issue where changes to shared route settings were not reflected in other routes	We have fixed a bug where changes made to the [Road Surface Conditions] and [Construction Traffic Lights (One-Way Traffic)] settings for shared routes were not reflected on other lanes.
3	Machine Simulation (Bug Repair)	Fixed an issue where Fleet performance machines were not displayed on the Haulage Animation screen	Fixed an issue where Fleet performance machines were not displayed on the Haulage Animation screen, so that they are now displayed correctly.

NO.	Target Functions	Overview
1	Simulation (Bug Repair)	• Overview : Fixed an issue where map operations slowed down when rendering large IFC files • Details : We have fixed an issue where the display would lag when drawing large IFC files in response to map operations, and have improved the system to allow for smoother operation.
